

EE5356 LAB Assignment #4A

K.R.Rao

Please open the file (DCT Part II and DST). We discussed the performance comparison of discrete transforms such as KLT, DCT, DST and DFT. (please limit to only these four transforms for this assignment.)

- a) Obtain the graphs of rate versus distortion (pages 26-27).
- b) Repeat (a) (page 28 and 31) for residual correlation versus r .
